GENERATE OPI FROM AUTOCAD (DFX)

- Laboratory context
 - Cryogenic installation: complex drawings
 - AutoCAD precis drawings
 - Working on EPICS for more projects
 - Part of team doesn't know CSS

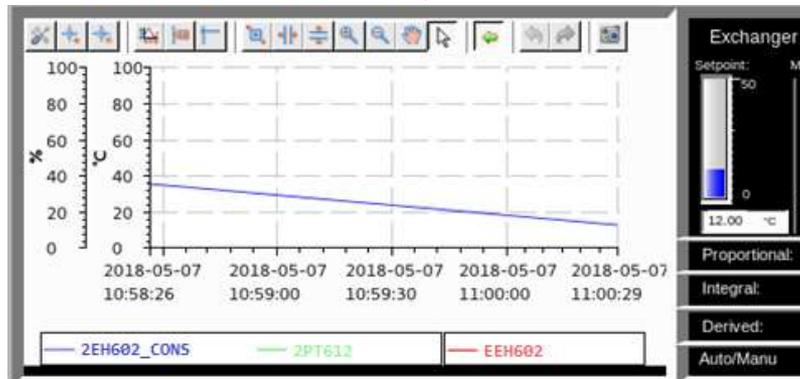

- Create animation
 - Custom AutoCAD block
- 2 types of drawings
 - Widget association
 - No widget association

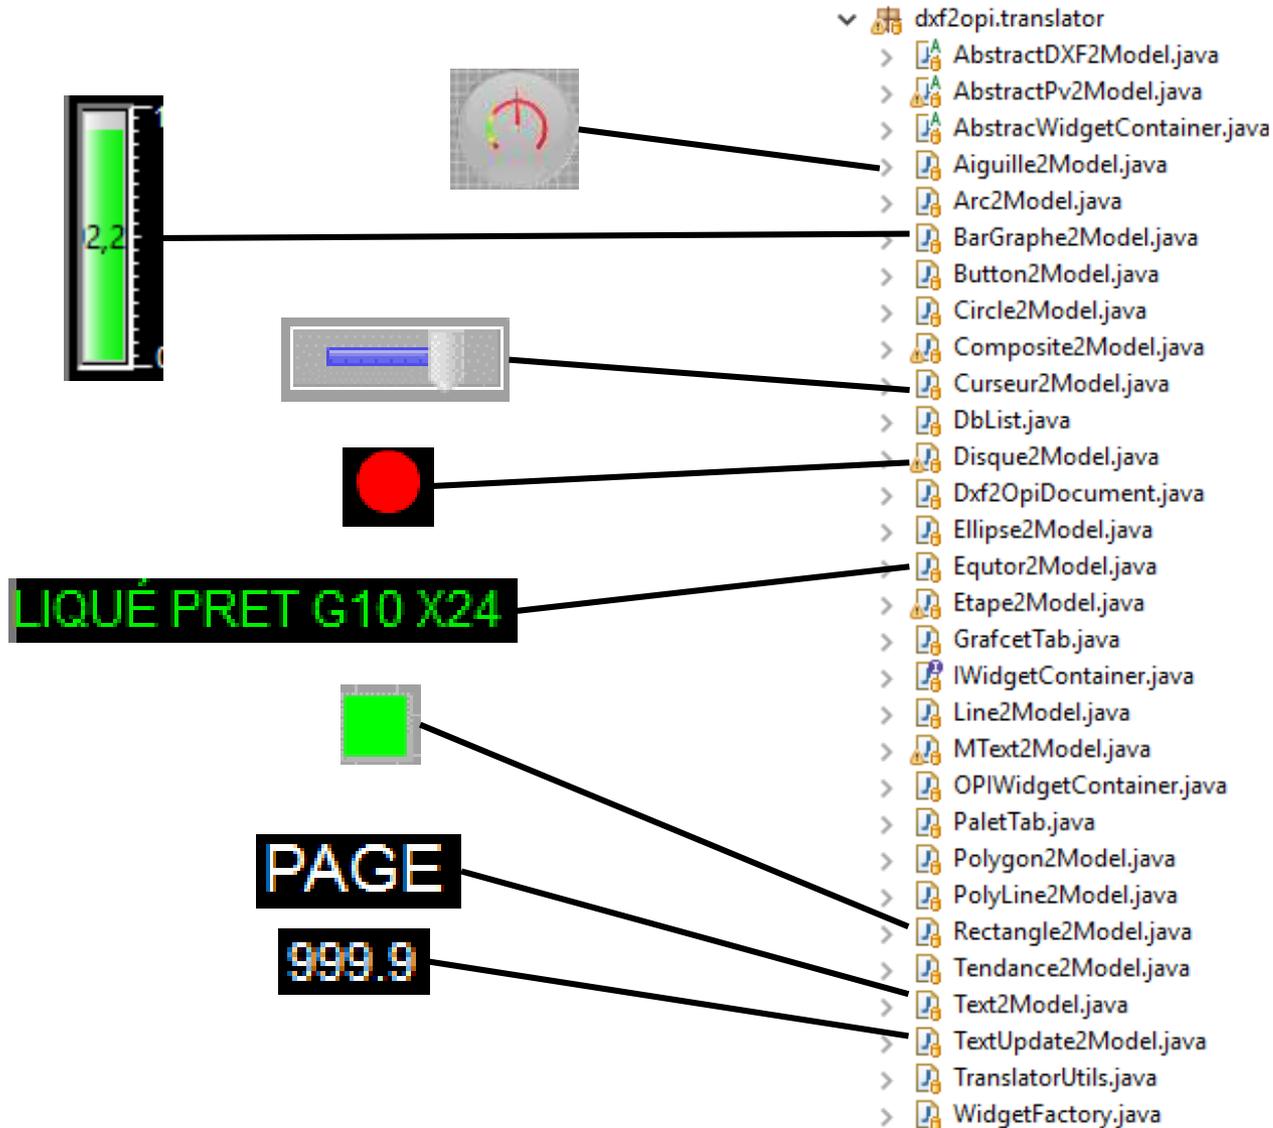

- Graph block graph called TENDANCE

WIDGET ASSOCIATION BLOCK

- How to associate any drawing with a PV?

The image shows a CAD software interface with a drawing area and two property panels. The drawing area contains a green zigzag line and a blue line. A red circle highlights a 'P' symbol on the blue line. A green arrow points from the 'Color 90' property in the 'Général' panel to the green line. A red arrow points from the '90' value in the 'AttributsBloc' panel to the 'P' symbol.

Général

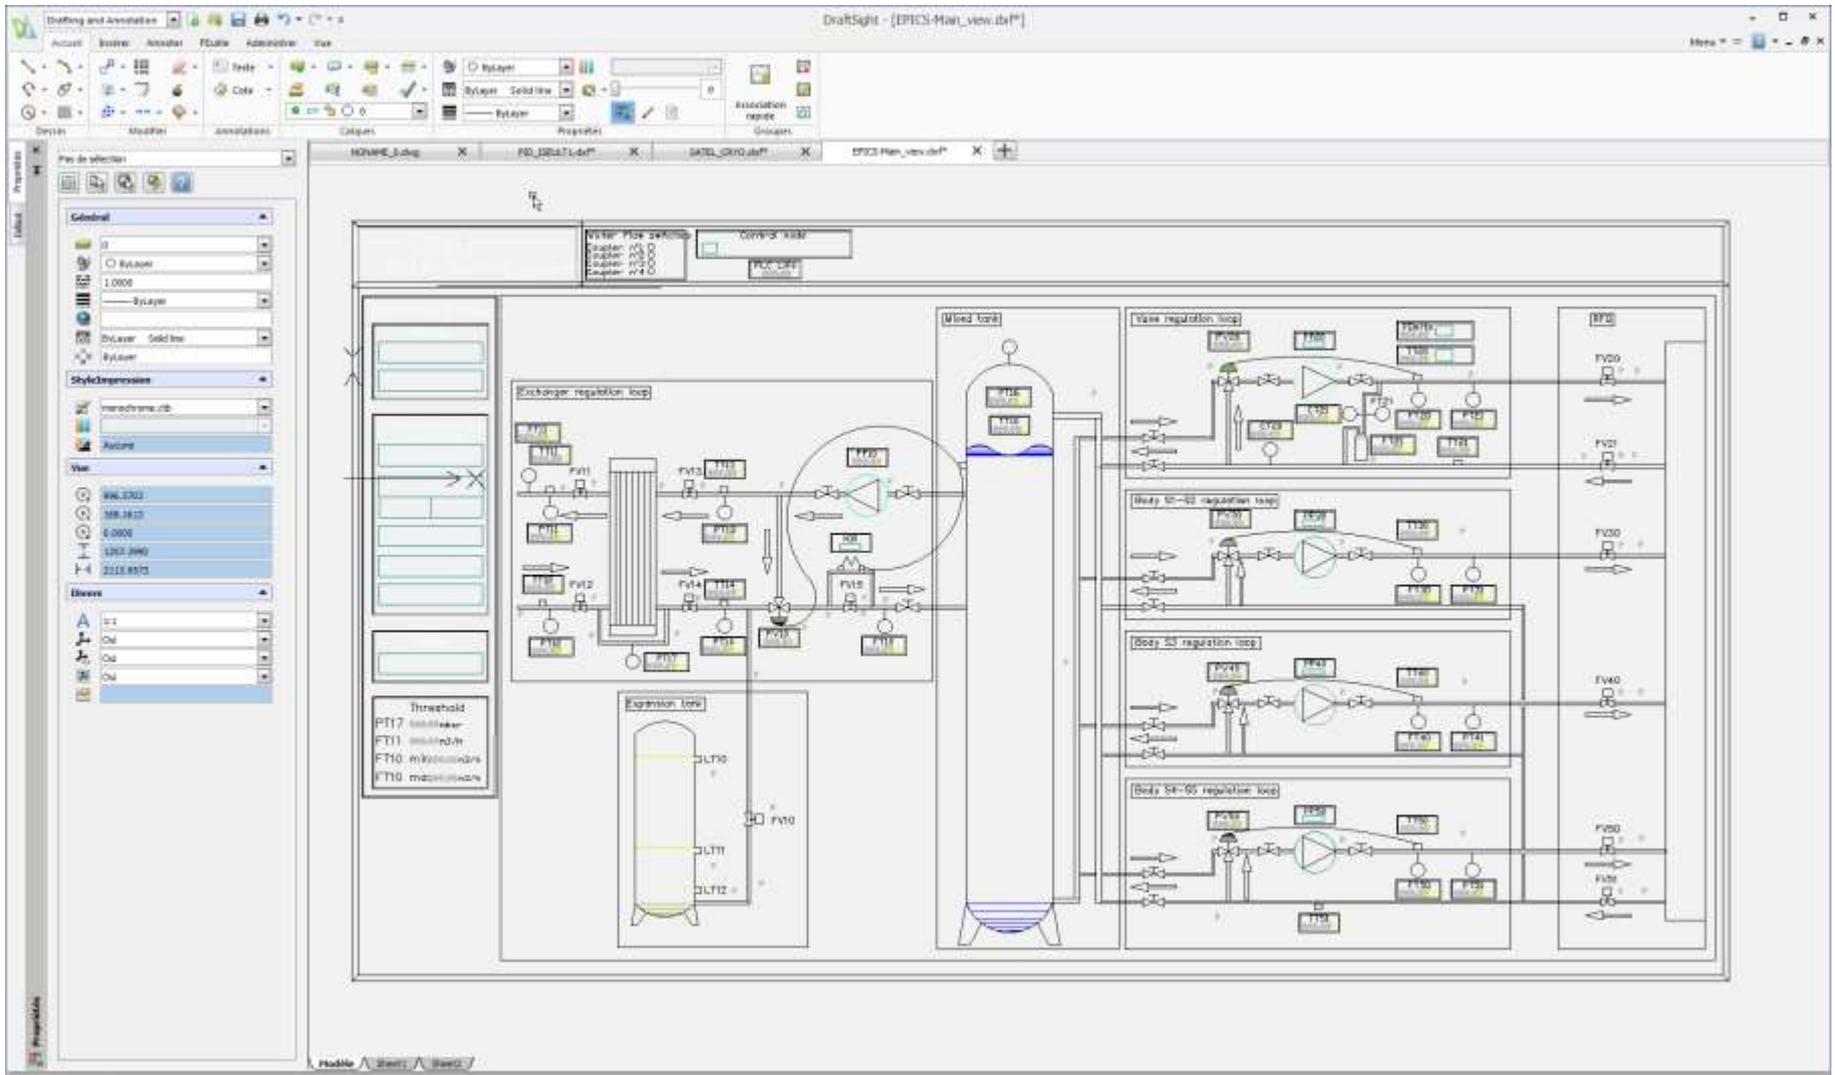

- 0
- Color 90**
- 1
- D 19.2
- ByLayer

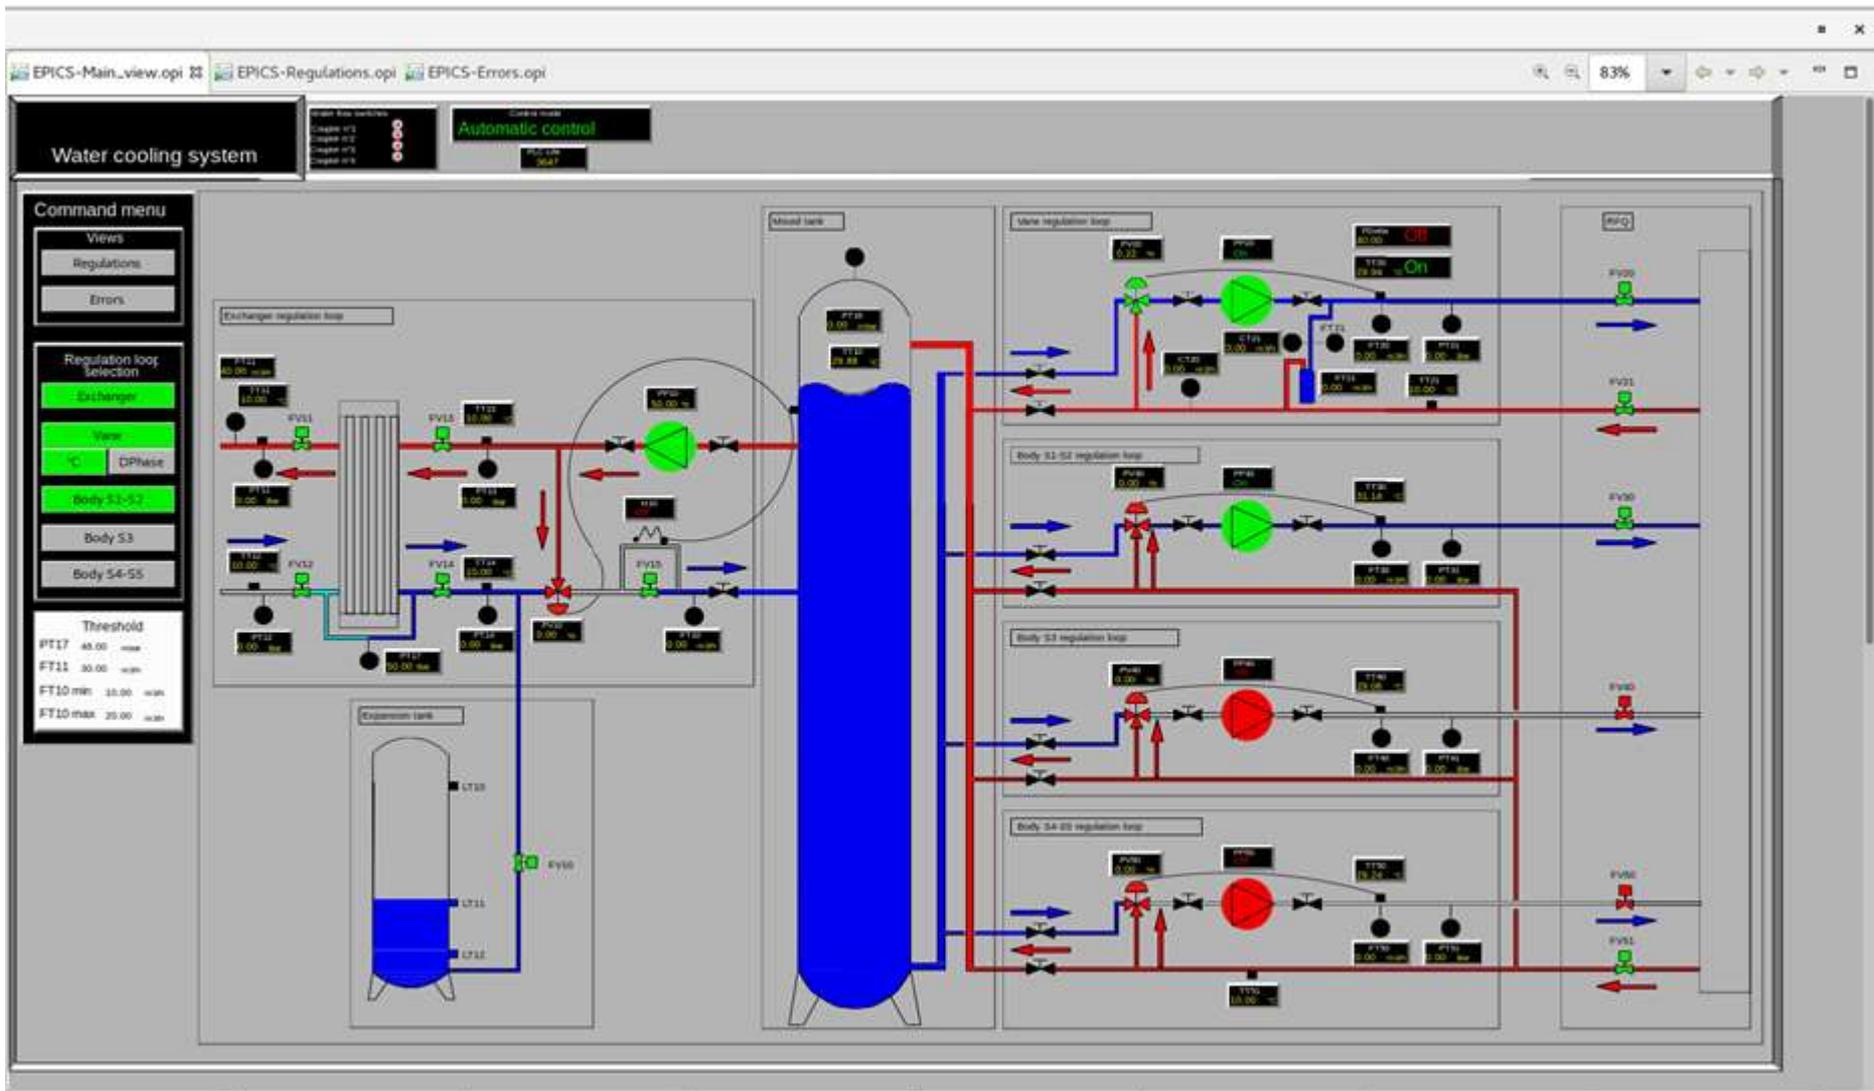

AttributsBloc

- COUL-0 8
- COUL-1 10
- COULEUR **90**
- SYMBOLE CM-CS03:Ctrl-001:OKD10D

- AutoCAD to OPI
 - Block position is relative to the insert entity => recalculation of the position of the widget
 - Eclipse plugin

Thanks for your attention
